BUSINESS WIRE  
Oct 2, 2023

AUSTIN, Texas, October 2, 2023 – In the third quarter, we produced over 430,000 vehicles and delivered over 435,000 vehicles. A sequential decline in volumes was caused by planned downtimes for factory upgrades, as discussed on the most recent earnings call. Our 2023 volume target of around 1.8 million vehicles remains unchanged.

Our net income and cash flow results will be announced along with the rest of our financial performance when we announce Q3 earnings. Tesla vehicle deliveries represent only one measure of the company’s financial performance and should not be relied on as an indicator of quarterly financial results, which depend on a variety of factors, including the cost of sales, foreign exchange movements and mix of directly leased vehicles.
